Chairman Powell:

I am a parent of a GREAT 16 year old girl. She has great morals and is very mature. However, we have always tried to encourage her not to watch any questionable TV programs that include violence.

I beleive that violence on TV can cause children to behave badly. I have seen this in some of my daughters freinds and aquantances.

Please vote to limit violence on TV.

Sincerely,

Ed Meilus

August 1, 2004

Commissioner Jonathan Adelstein
445 12th Street SW
Washington, DC 20554

Commissioner Adelstein:

Commissioners,

When reading information given on the Focus on the Family website, I was delighted to hear of your inquiry and desire to hear from the public on the issue of violent television programming and children. All the research I have ever been exposed to in undergraduate and graduate studies have all pointed to one conclusion: Exposure to violence in any form has detrimental effects upon children (and adults for that matter as well). Exposure to violence for children under three years of age is especially harmful, since they have not yet developed the capacity to see television as a non-reality. In my household, the television is relegated almost exclusively for video use (Winnie the Pooh, Kipper, and Veggie Tales), with rare exception. My husband and I have ceased to watch any regular programming in our home, and only sit down to an occasional video (less than once a month occurrence).

Thank you for your inquiry and I hope the outcome is that violence is curbed on television so more of us feel more comfortable to turn it on more of the time without fearing negative effects on our families.

Sincerely,

Paula Montijo

Commissioner Abernathy:

This experiment with so freely allowing the display of all kinds of violence and sexual decadence in our living rooms, air waves, and everywhere else in the United States in the name of "free speech and expression" has more than proved, by myrid ample evidence and in very costly ways, that this kind of license is one very dangerous health and safety risk to our children, our society and this country.

In reality it is media-education, even if or maybe especially when, it is presented in entertainment form.

Question: Are good 'ole Christian values, that once greatly defined this Country's standards, the real threat to the well being of this nation as some loudly declare? Or is it actually the lack of good moral boundaries backed by laws?

How and when should lines be drawn before people destroy themselves and others if everybody remains so intimidated and seduced by this current trend of base, self-centered indulgent, demand it, "if it feels good do it" philosophy?

Even Thomas Jefferson recognized these things and said so infatically on many various occasions; warning against letting these liberties be misused, or this very scenereo would happen to this country's ruin. Will you do something about it?

Sincerely,

Pamela Manard

Commissioner Abernathy:

It is our opinion that if only one thing could be blamed for the downfall of our country and society, it would be TV. Programming becomes more and more violent each year. Why can't we go back to the decent programs of years past that promoted family life and moral values, e.g. The Waltons, Andy Griffith Show. We have become violence and sex crazed and the violence and indecency in our society is a direct result of what our eyes and minds take in on a daily basis. Years ago when we did have decent programs, we didn't have anywhere near the problems we do today with kids involved in drugs and violence. What more proof do you need? It doesn't take a rocket scientist to figure out what is wrong. Please do something about it - you have the power to make changes happen.

Sincerely,

Mr and Mrs. Robert R. Jewett
